FOR IMMEDIATE RELEASE

New Hach Flow Meter Selection Guide

The Hach 2008-2009 Master Catalog now includes a **NEW *Flow Meter Selection Guide*** to assist you in determining the ideal open channel flow meter or service. Included are flow meter specifications, application descriptions, product and application photographs, customer testimonials, product features and options ordering information tables and more. The catalog showcases Hach Sigma and Marsh-McBirney flow meters and services. Whether your application requires a flow meter purchase, rental, or our popular 'Hands Off' Data Delivery Services that provides flow data direct to your desktop without the need for a flow meter purchase, you are guaranteed to find the perfect monitoring solution to match your needs. Also, you'll be able to see the faces behind the names of our FLOW EXPERTS in the Hach Flow Meter Support Center located in Frederick, Maryland.

To receive a copy of the Hach Flow Meter Selection Guide call 800.368.2723/301.874.5599 or visit our website at www.marsh-mcBirney.com to download a pdf version of the Guide.
